## What's New

*First and Last Name*  
*Presenters Title*

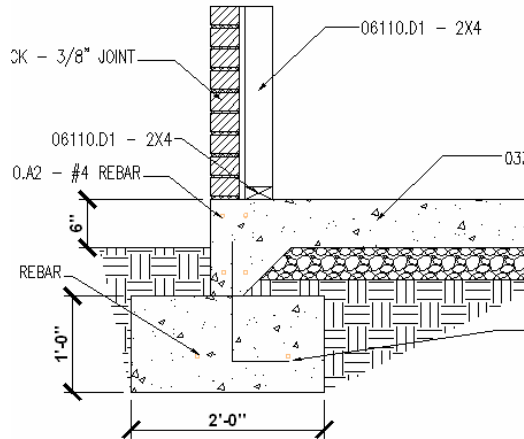

# AutoCAD Architecture 2008

## *Feature Focus*

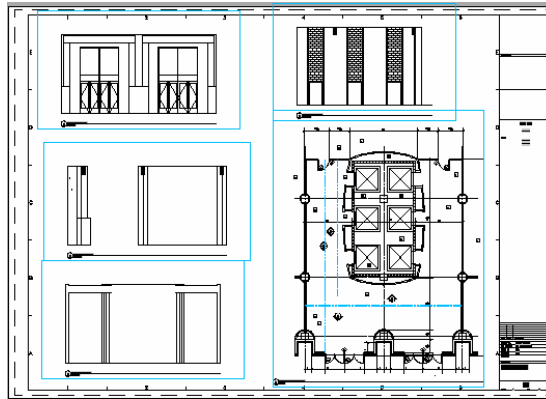

### Enhanced Productivity

- Area Documentation
- Detail Documentation

### Greater Flexibility

- Graphic Editing
- Sheet Annotation
- Drawing Management

### Smoother Collaboration

- Data Exchange
- Revision Communication
- Visualization

# Enhanced Productivity

*Tools that help you work faster and more efficiently*

# Area Documentation

## *Enhanced Productivity*

- Spaces
  - Space layout productivity
  - Automatic update during design
  - Industry recognized area calculation standards

*Generate and report space information quickly and accurately*

# Greater Flexibility

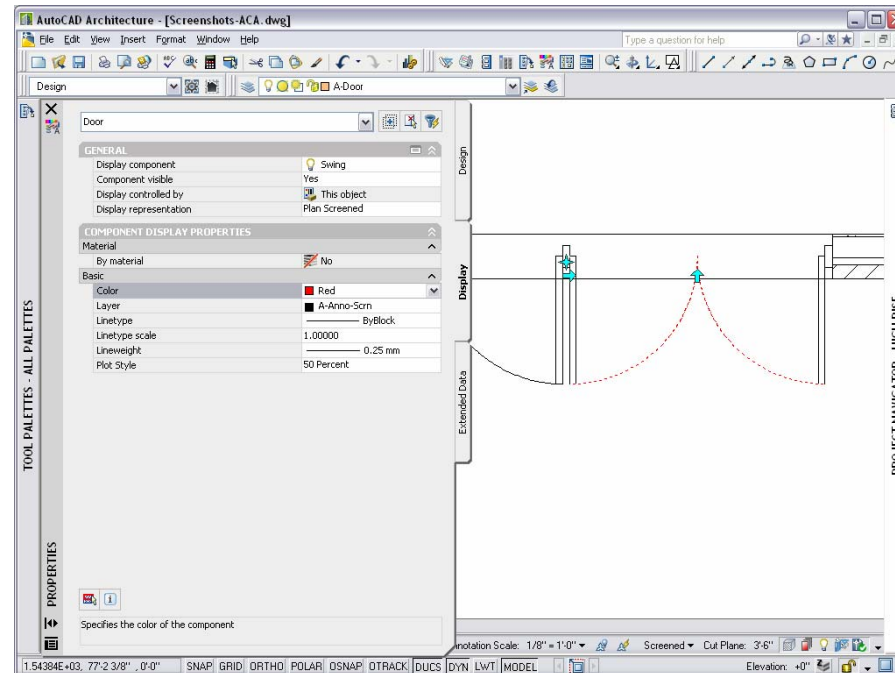

*New tools that aid and enhance  
existing workflows*

Autodesk®

# Graphic Editing

## *Greater Flexibility*

- Object graphic control
  - Intuitive user interface
  - Component level control
  - Improved viewport control

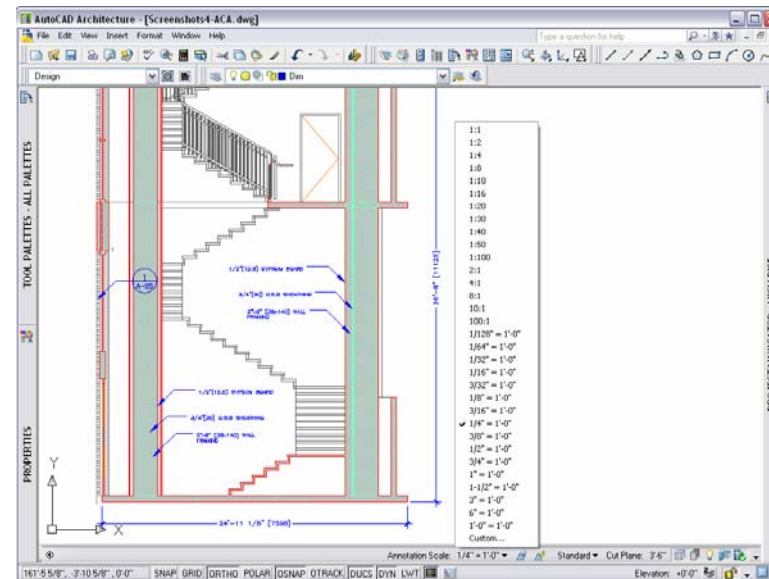

*Make designs conform to your graphic standards with minimum effort*

# Sheet Annotation

## *Greater Flexibility*

- Annotative Scaling
  - Architectural content in-the-box
  - Automated scaling per viewport
  - Easy scale control access

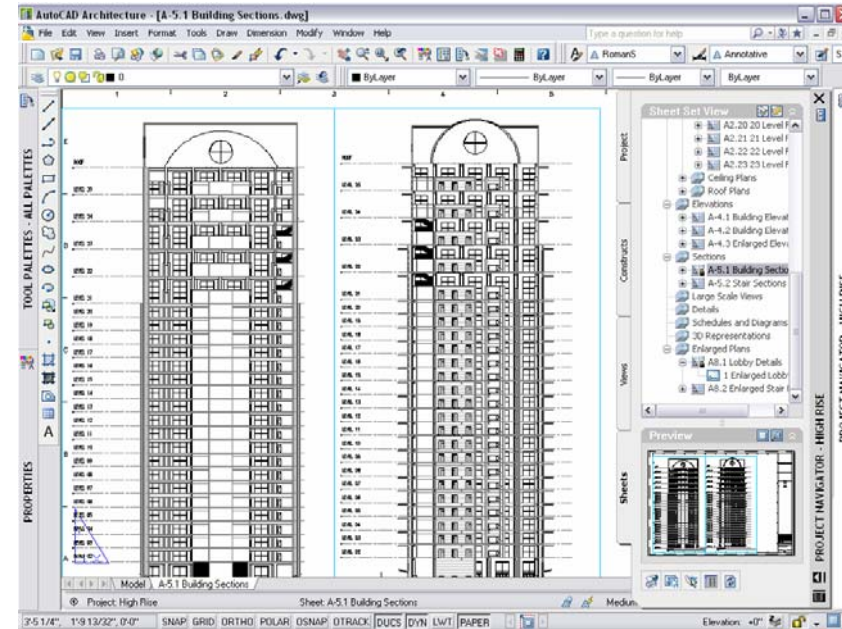

*Reduce rework when annotating construction documents at multiple scales*

# Drawing Management

## *Greater Flexibility*

- Project Navigator
  - Sheet graphics coordinated with views
  - Launch projects via shortcuts
  - General Fit and Finish

*Existing workflow supported with improved drawing management tools*

# Smoother Collaboration

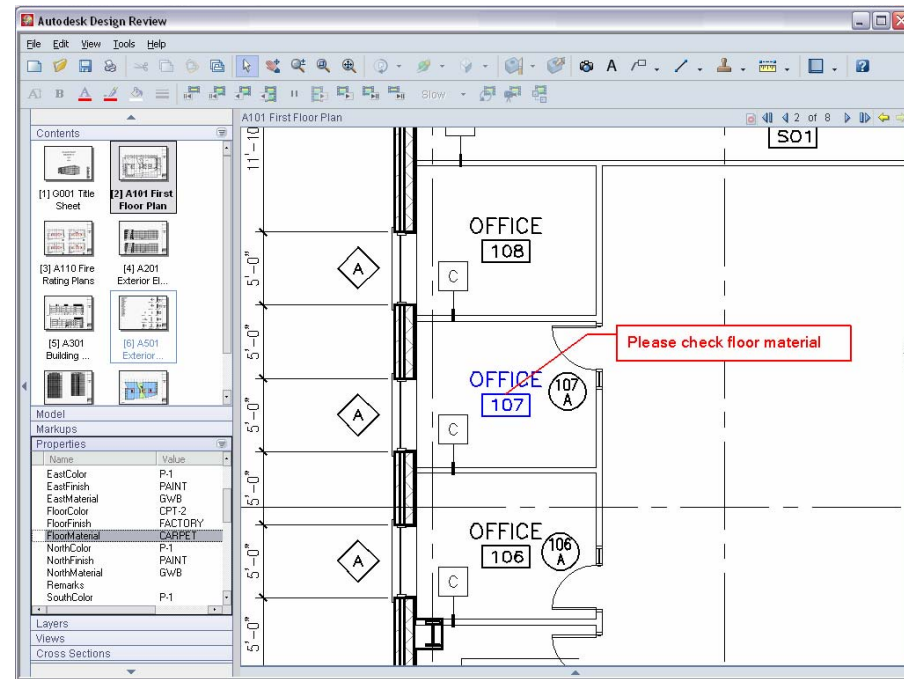

*Tools that improve communication  
with your extended design team*

Autodesk®

# Data Exchange

## *Smoother Collaboration*

- IFC
  - Native import / export
- DWF Underlay
  - Layer visibility control
- AutoCAD MEP support
  - Space surface openings
- DGN V8 support
  - Import / Export / Xref

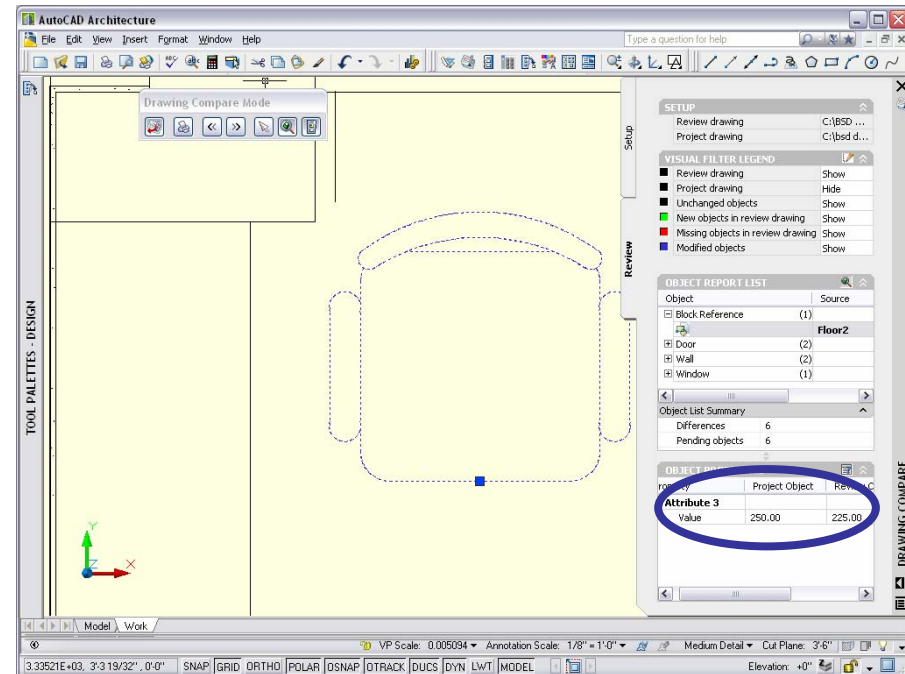

*Easily work with professionals  
across all disciplines*

# Revision Communication

## *Smoother Collaboration*

- Drawing Compare\*
  - Compare graphic changes
  - Compare object properties
  - Color-coded graphic results

*Shorten review cycles and reduce potential RFIs*

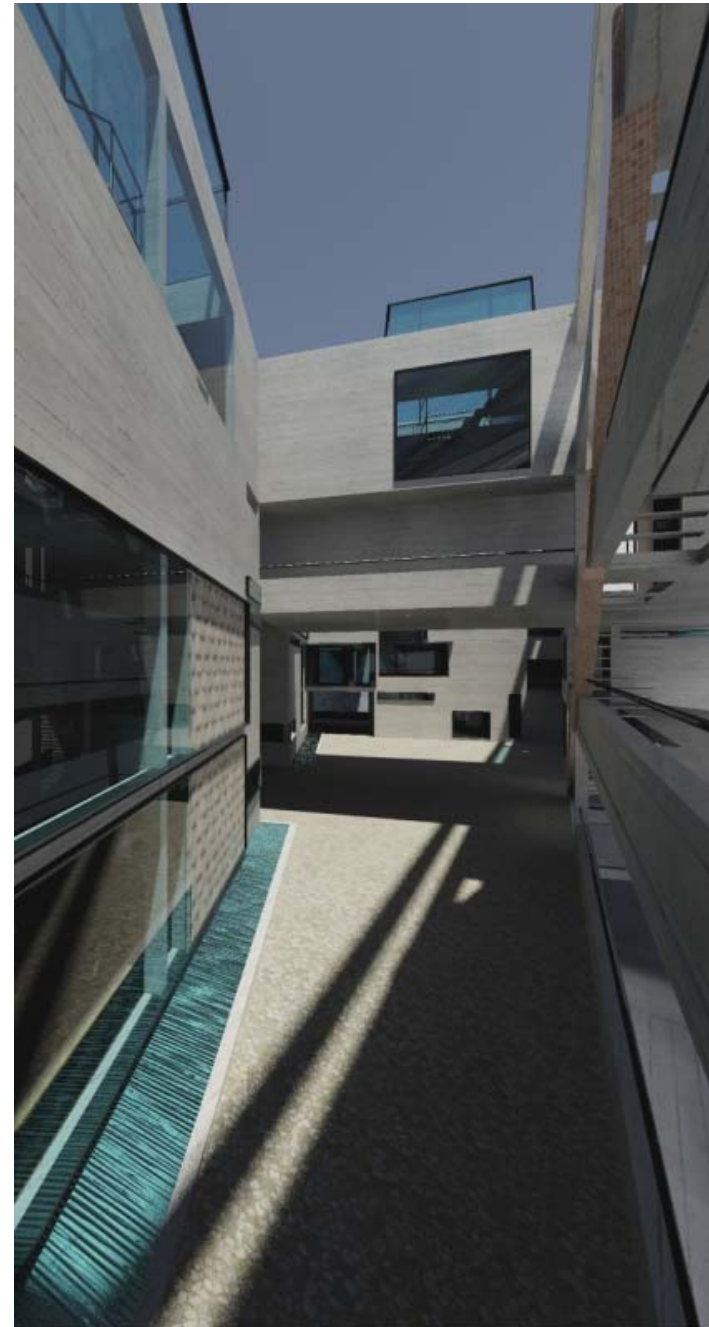

\* Subscription Customers Only

# Visualization

## *Smoother Collaboration*

- Integrated rendering environment
  - Real-world lighting effects
  - Improved material maps
  - Easy material creation

*Bring ideas to life with integrated visualization tools*
